

Fighting Infectious Diseases on the African Continent

July 23, 2021

The African continent carries a disproportionately high share of the global infectious disease burden. The extraordinary scientific progress made during the COVID-19 pandemic gives hope in addressing a range of life-threatening infectious diseases. The kENUP Foundation has been working with the World Health Organization, the Africa CDC, the European Commission, the European Investment Bank, BioNTech, and the Bill & Melinda Gates Foundation on sustainable solutions to infectious disease challenges on the continent.

For a significant update on this work, the kENUP Foundation invites the public and media representatives to

Fighting Infectious Diseases – Focus on Africa

on

July 26th, 16:00-17:30 CEST

Speakers will include:

- Dr Tedros Adhanom Ghebreyesus, Director-General WHO, and Dr Matshidiso Moeti, WHO Regional Director for Africa
- Dr John Nkengasong, Director of the Africa Centres for Disease Control
